AV Network for Healthy Families
July 6, 2005
Antelope Valley Hospital
Meeting Notes

Welcome and Introductions

Business

- **Collaborative Name Change**

The Antelope Valley Best Babies Collaborative (AVBBC), which has been operating as a Healthy Births Learning Collaborative (HBLC), needs to change their name so they will not be confused with Antelope Valley's BBC that has been awarded planning funds from First 5 LA's Healthy Births Initiative. After a group brainstorming session, the new name of the AVBBC is: **AV Network for Healthy Families**.

- **Meeting Logistics: Time and Date**

It has come to the groups' attention that there is a need for our meeting to be extended from one and a half to two hours, due to the content being discussed. The room that we currently use is unavailable after 10:30 am. Therefore if we wish to meet for two hours at the current location our meeting will have to begin at 8:30 am. The group came to consensus and decided that we will now meet from 8:30-10:30 am. CCRC and CCAV also volunteered their conference rooms if we need to move locations.

- **LABBC Center for Healthy Births Update**

CHB staff gave an update on the Perinatal Summit taking place on October 24th. There will be time scheduled at the next meeting in August to brainstorm on the topics that the community would like to see discussed at the upcoming summit.

Discussion

- **Passion Activity**

Each person was asked to write down their passions for what brings them to each meeting. From all the passions represented, the group decided what characteristics they wanted from the passion statements to be included in the vision and mission statement. Below are the vision and mission statement. (Please see attachment for "passion results")

Center for Healthy Births

Building Blocks for Better Babies

Vision

The Vision for the AV Network for Healthy Families is that all families in the Antelope Valley will flourish in a nurturing environment.

Mission

The AV Network for Healthy Families, a Healthy Births Learning Collaborative, promotes a wholistic approach to quality care and family wellness through education, advocacy and community involvement.

Next Steps:

Perinatal Health Summit Brainstorming Session

Action Planning for our Work Plan

AV Healthy Births Fair Update

Next Meeting will be on August 3, 2005, 8:30 am-10:30 am
AV Hospital Imaging Center, Conference Room 15, 4th Floor.
